EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Dietzel (Reg. No. 44,656) on 9/21/05.

The application has been amended as follows:

Delete claims 28 – 37;

After "computer-readable" (claim 27, line 1) insert – **storage** --.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claims 1 and 17:

A collection system embedded in a client system, including one or more **data collectors having at least one *plug-in* for extracting business transaction process data and *infrastructure data* from client system components.**

These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

In addition, the Examiner points to Applicant's arguments (Arguments on 7/18/05; pp. 8 - 10).

Specifically, Eicher et al. (U.S. Pat. Pub. No. 2002.0099578) (Performance-Based supply Chain Management System and Method with Automatic Alert Threshold Determination) does not specifically disclose or remotely suggest a plug-in for extracting **infrastructure** data from client system components and comparing the extracted data with threshold values.

Specifically, Bowman-Amuah (U.S. Pat. No. 6,427,132) (System, Method and Article of Manufacture for Demonstrating E-Commerce Capabilities Via a Simulation on a Network) discloses a **simulation** for modeling e-commerce capabilities. Bowman-Amuah does not specifically disclose or remotely suggest a **plug-in** for extracting **infrastructure** data from client system components and comparing the extracted data with threshold values.

A review of claims 1 - 27, in view of the Examiner's arguments above and in view of Applicant's arguments detailed above, indicates that claims 1 – 27 are allowable over the prior art of record.

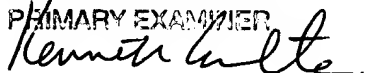

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
